

*“There’s not just any God, people talk about all sorts of Gods but there is only one God, one true God and I believe it to be the God of the Bible”. **Ken Ham Founder & CEO, Answers in Genesis***

(I) IN THE BEGINNING....

.....God _____(1) the heavens and the earth and I believe that to be the true God the creator God of the bible.

Key Question: How do we know there is God?

Answer: SCIENCE!!! We rely upon, uniformity of nature that those laws will be the same tomorrow as they were yesterday.

(II) TYPES OF LAWS

- (A) Laws of nature
- (B) Laws of chemistry
- (C) Laws of physics
- (D) Laws of planetary _____ (2)
- (E) Laws of logic

If the _____ (3) came about by chance random processes then if those laws just evolved how do we know they are not going to change tomorrow, why should we _____ (4) on them? Actually empirical science that built our technology was based upon biblical principles that there is a creator God that set up the laws of nature and _____(5) of nature and the laws of logic so that we can trust them.

(III) DNA

In 1953 two scientists who are atheist set out to prove life was built on _____ (6). There is no God no intelligence behind life and they discovered heredity that today we call _____ (7).

(A) Functionality

- (1) Books of _____ (8)
- (2) A language system
- (3) Capable of self-replication
- (4) Possesses both the reading and writing mechanisms needed
- (5) There is no _____ (9) of nature which tells us that matter produces information
- (6) Information only comes from previous existing information
- (7) There is no law of nature which tells us that matter produces _____(10) system
- (8) Languages only come from an intelligence

In fact what we find by observation is that languages only come from intelligence it comes from a mental process and so DNA really cries out in the beginning God. There had to be an intelligence to make the language system, an intelligence to write the books of information. It's so obvious that there is a _____ (11).

(B) Parallel Answers

- (1) "Maybe Intelligent life from outer space, aliens from outer space, brought life to earth" - *Crick*
- (2) That designer could well be a higher intelligence from elsewhere in the universe" - *Dawkins*

Now why did he answer that way?

Well because he said when you looked at DNA you see _____ (12) you evidence of intelligence he recognizes there is an intelligence behind DNA but he certainly does not want to that's the God of the _____ (13), so instead he says it was some alien intelligence he has never meet, somewhere out there in outer space.

(C) The God of the Bible is...

- (1) An _____ (14) creator God
- (2) An _____ (15) God
- (3) A God who exist outside of _____ (16).

3. Since the God of the Bible will hold us accountable, what should we as Christians doing in a world that rejects the existence of God? *Reference: 1Timothy 4:1-5*
